Hi Gil,

Just wanted to follow up on the issue below: the City of Redding has a single pretreatment program which covers both of their POTWs (similar to a number of other programs throughout California). We count PCIs and PCAs by pretreatment program, not by treatment plant (with the exception that some of them are large enough that we count them as a "double task").

In case you hadn't seen it, I thought it might be helpful to send a copy of the spreadsheet Russell Norman used to use to track PCIs, PCAs, and other pretreatment tasks for all pretreatment programs (both approved and non-approved) in California (attached). This might also prove helpful to you or the Regional Boards in determining which programs should be prioritized for a PCI or PCA next.

I realize you have a lot on your plate right now, and that you may be covering the pretreatment duties just temporarily, but just wanted to offer this resource as something that might help lighten the load. I'd be more than happy to discuss further if you'd like.

Kind regards,

PK and Amelia,

In looking over the preliminary list of tasks from RB5 noted below, I noticed what I believe to be an error that you probably want to address before issuing the official Technical Directive for pretreatment support. Redding is listed as having two PCIs (one for each WWTP). As you know, the pretreatment program is not specific to WWTPs and captures oversight of all SIUs discharging to the two WWTPs. Therefore, based on the allocation noted (a total of 7 PCIs) I believe they can add an additional facility to this list. Just wanted to point this out before they finalize their list for you.

Thanks,

Hello,

Good news, the Clean Water Act 106 contract for fiscal year 2018-2019 has been approved by EPA and issued to the contractor. This contract provides your region with permit writing and pretreatment inspection/audit support. The next step is to provide the contractor with a list of the specific permits to be written and a list of facilities to be inspected/audited. Below are the details.

Permit Writing Support Details:

Per the contract, your region will receive support for five (5) permits. Below is a list of permit for permit writing support:
